Shipping Weight	270 lb

Agency Approvals	
Agency Approvals	UL, CE, Queensland Australia

For the most accurate information the installation guide should be used for all design and construction purposes. Due to continuous product improvements, design and specifications subject to change without notice. The quality management system of Alliance Laundry Systems' Ripon facility has been registered to ISO 9001:2000.

Features & Benefits

- 2.84 cu. ft. washtub provides lots of room for larger loads
- Electronically controlled motor, with out-of-balance logic, manages and redistributes unbalanced loads for uninterrupted wash cycles
- High spin speed of over 1000 RPM means less water left in clothes for faster drying cycles and lower energy usage in the dryer

Available Controls

Control	Description
<p>Quantum Gold Front Load Washer</p>	<p>In addition to its network capabilities with our larger equipment and off-site management features, Quantum Gold offers additional owner and customer benefits such as PC/PDA programming and machine audit capabilities as well as time-of-day pricing of up to a year in advance, a free "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice. Cycle modifier keys allow additional profit opportunities for store owners.</p>
<p>Micro-Display</p>	<p>Our Micro-Display Control (MDC) shows vend price, while customers stay informed about the wash process through cycle status lights and a digital cycle countdown. MDC offers four cycle selections and comes with a single coin drop installed. The control also can interface with a variety of aftermarket card reader systems.</p>
<p>E-Mech</p>	<p>The E Mech control's straight-forward design offers customers simple water temperature and fabric selections. Cue lights keep them aware of what wash cycle the washer is in or if the dryer is in-use. This control will work with the coin slide manufacturer of the owner's choosing.</p>
