Electric and Steam Models	CSAus

For the most accurate information the installation guide should be used for all design and construction purposes. Due to continuous product improvements, design and specifications subject to change without notice. The quality management system of Alliance Laundry Systems' Ripon facility has been registered to ISO 9001:2000.

Features & Benefits

- Large, easy to clean lint compartment
- Fewer moving parts mean fewer maintenance problems and less wear
- High performance heater box increases energy efficiency, reduces drying times and provides more comfortable operating environment
- Axial airflow pattern with sealed cylinder rims delivers the fastest and most efficient drying results
- Patented oval cylinder perforations help prevent damage to the dryer's sweep sheets caused by drywall screws left in customers' pockets

Available Controls

Control	Description
<p>Quantum Gold Tumbler</p>	<p>In addition to its network capabilities and off-site management features, Quantum Gold offers additional owner and customer benefits such as PC/PDA programming and machine audit capabilities as well as time-of-day pricing of up to a year in advance, a free "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice. As gas prices continue to rise, owners will appreciate that Quantum enables them to set dry cycle times right down to the second for maximum profitability.</p>
<p>Micro-Display</p>	<p>For owners desiring better control over their operations, the Micro Display Control enables them to easily set and change vend pricing. The Led displays vend price and time remaining in the cycle. Owners also gain basic audit features as well as the capability to integrate aftermarket activations for their stores.</p>
<p>Manual</p>	<p>This mechanical control is extremely user friendly offering variable temperature controls, enabling customers to select the proper drying process for anything from heavy towels to delicate clothing.</p>
